Attention Dale Stone

Dear Dale,

Letter of appreciation

I would like to thank you and Bethuel in your claims department for the professional and excellent assistance given during my claim process.

As with any motor vehicle accident it is always a stress full episode in ones' life. The professional manner in which my claim was handled minimized the stress. Bethuel excellent communication skills made sure that every step of the process was smooth sailing. When it came to the fixing of my motor vehicle, I did not even have to contact the panel beaters as all this communication was done by Bethuel. The handling of the claim from beginning to end was a pleasure and I will gladly recommend the asset insurance to anyone.

Thank you once again for the professional and excellent service.

Regards

J. Malan
